

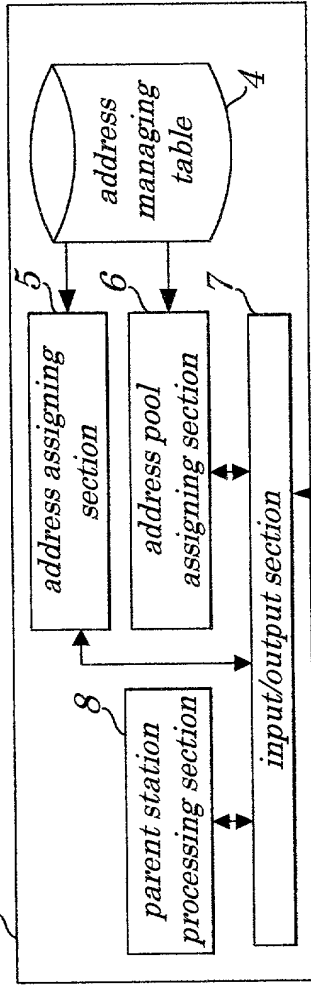

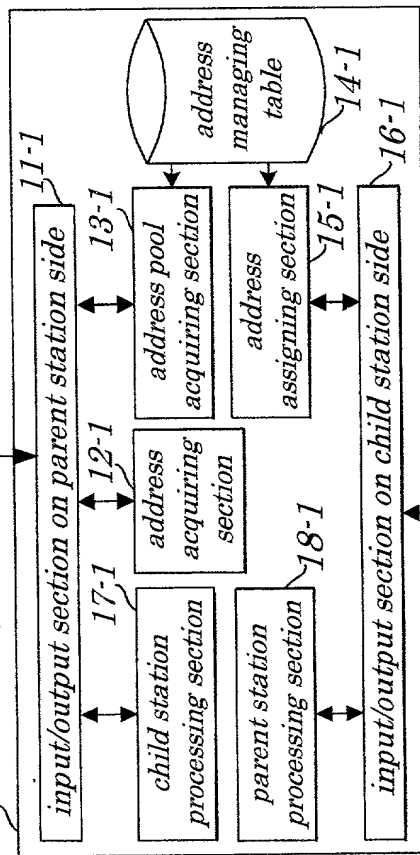

FIG. 1

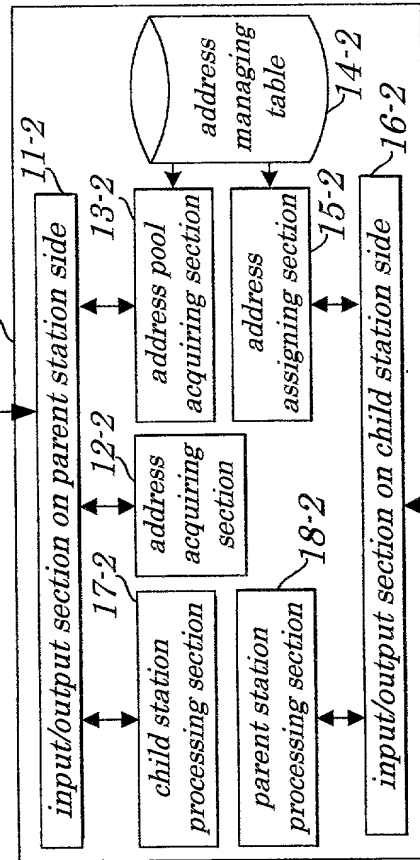

1; radio-relay terminating station

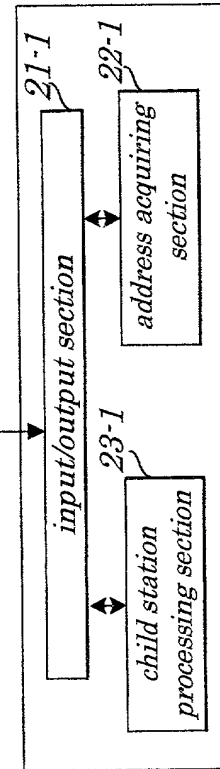

2-1; radio-relay station

2-2; radio-relay station

3-1; wireless terminal

3-2; wireless terminal

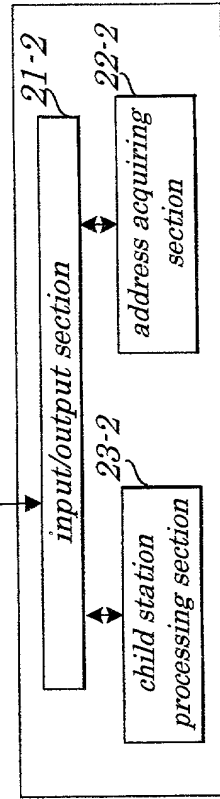

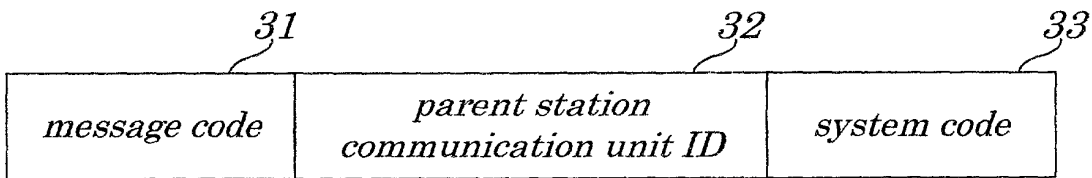

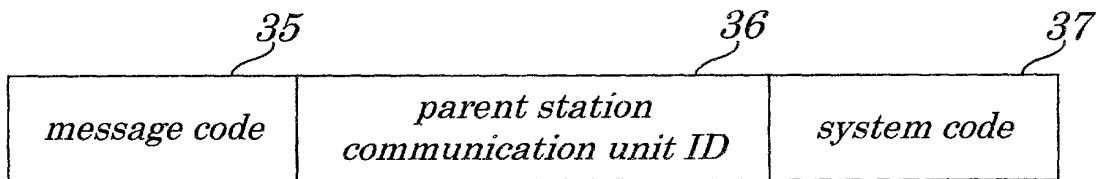

FIG.2

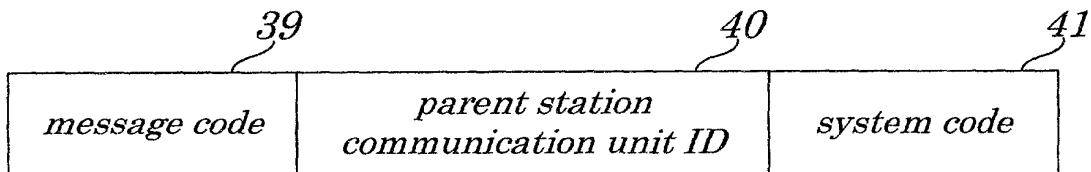

30; wireless control signal message

FIG.3

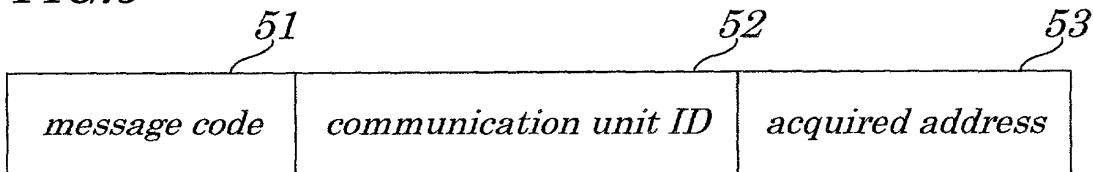

34; participation request message

FIG.4

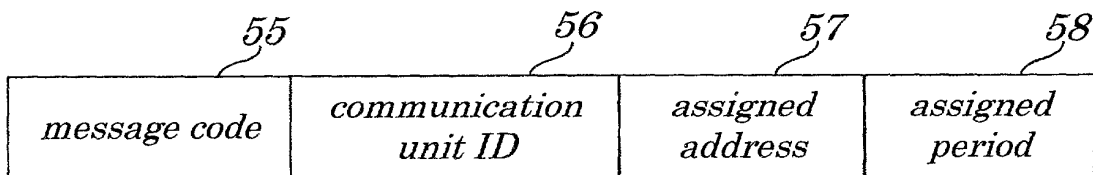

38; participation acknowledging message

FIG.5

50; address acquiring request message

FIG.6

54; address assigning notification message

FIG. 7

61 <i>message code</i>	62 <i>communication unit ID</i>	63 <i>requested address</i>
---------------------------	------------------------------------	--------------------------------

60; address assigning refusing message

FIG. 8

71 <i>message code</i>	72 <i>communication unit ID</i>	73 <i>number of requested addresses</i>	74 <i>head address of acquired pool</i>
---------------------------	------------------------------------	--	--

70; address pool acquiring request message

FIG. 9

76 <i>message code</i>	77 <i>communication unit ID</i>	78 <i>number of assigned addresses</i>	79 <i>head address of assigned pool</i>	80 <i>assigned period</i>
---------------------------	------------------------------------	---	--	------------------------------

75; address pool assigning notification message

FIG. 10

82 <i>message code</i>	83 <i>communication unit ID</i>	84 <i>head address of requested pool</i>
---------------------------	------------------------------------	---

81; address pool assigning refusing message
